Who Is PRISM Plastics?

Welcome to PRISM Plastics, a leading plastic injection moulding company specialising in a wide range of engineering polymers.

As a proud member of the PRISM Group of manufacturing companies, with over 50 years of experience, we are dedicated to our craft and deeply committed to our community.

Located in the heart of the Eastern Cape, South Africa, PRISM Plastics is more than just a business – it's a beacon of hope. By producing quality products, PRISM Plastics touches the lives of real people, making meaningful contributions to safety, health, education, and economic growth for both our employees and customers.

Why Work With PRISM Plastics

With a reputation for producing quality products and delivering industry-leading service, you can always have peace of mind. This is reinforced by our ISO 9001 Quality Accreditation, which meets the highest industry standards.

As a B-BBEE Level 2 contributor, we approach every project with a collaborative mindset, working hand-in-hand with you to co-develop products, create custom solutions, and bring innovations to market. Our expertise in research and development allows us to deliver tangible results that drive your business forward.

PRISM Plastics is one of the few manufacturing companies willing to invest in tooling and machinery for projects with a demonstrated return on investment. This is just one of the ways we foster strong partnerships built on trust, value, and mutual success.

What We Offer

Plastic Injection Moulding:

Our facility boasts machinery with clamping capabilities ranging from 168 to 900 tons, supported by highly trained staff who ensure reliability and versatility to meet your manufacturing needs. We accommodate mould shot weights from 50 grams to 2.8 kilograms.

We work closely with you to co-develop new products and parts for your business, while also providing new tooling and moulding solutions. Additionally, we offer seamless relocation of your existing tooling, with a swift changeover period of just two weeks to get you up and running quickly.

Plastic Blow Moulding:

With over 15 years of expertise in blow moulding, we work with polycarbonate and acrylic materials. Our automated blow moulding machines are tailored to handle exact specifications, ensuring precision and efficiency in every product.

Types Of Plastics

PRISM Plastics works with a wide range of engineering polymers, including acrylic, polycarbonate, polyethylene, polypropylene, PET, and ABS. These materials are meticulously selected to meet the specific requirements of our customers across diverse industries.

Industries We Serve:

We manufacture for a wide range of industries:

- Home Appliances
- Electrical & Electronic
- Storage Tanks
- Water filtration
- Pumps
- Automotive
- OEM
- Packaging
- Construction

Flexible solutions

Flexibility for growth

Value-added Services:

Warehousing

Benefit from our cost-effective warehousing solutions, offering a lower cost per square metre and rapid delivery of stocked items within 48 hours.

We collaborate with clients to tailor storage and logistics solutions for their manufactured products, addressing their unique needs while ensuring faster turnaround times and cost savings.

Localization

By manufacturing locally, you support the South African economy while leveraging Prism's reduced warehousing costs and faster response times.

Partner With Us

At PRISM Plastics, we are all about moulding partnerships, driving innovation, and empowering people. We are committed to quality products, client collaboration, and employee well-being.
Join us in shaping a brighter future - one product at a time.
