

Industrial Lighting Solutions

Accende is a leading industrial lighting brand in South Africa, designed and manufactured for demanding and hazardous environments. Our diverse range of products includes Zone 1, 2, 20, 21, and 22 luminaires, industrial flood lights, bulkheads, and vapour-proofs. Ideal for mines, chemical plants, factories, breweries, refineries, boiler rooms, bulk silos, or wheat mills, Accende luminaires are engineered to meet international standards and built to endure. Wherever there is flammable dust, extreme temperatures, vibrations, or gas vapours, safety is the top priority.

Accende Excellence

- Five-year/100,000-hour warranty. (LM80-B10 @85°)
- Surge protection up to 10kA.
- Up to ten years warranty on our luminaire housings.
- Mechanical impact protection rating of up to IK10.
- Energy efficiency ranges from 140 lumens per watt to 190 lumens per watt.
- Colour Temperature (CCT) options from 2200K to 5700K, at 70, 80, and 90 CRI.
- Broad array of optical beam angles to suit various applications.
- Digital communication platforms such as DALI, POE, and Bluetooth enable seamless integration into advanced lighting systems.

PRISM Lighting Highlights

Welcome to PRISM Lighting, a specialist manufacturer of lighting solutions and a proud member of the PRISM Group.

With over 50 years of experience and cutting-edge facilities for luminaire manufacturing, we are committed to illuminating possibilities for the companies we partner with and the communities we serve. We envision a brighter future for the Eastern Cape region of South Africa, where our head office and factories are located. Our advanced lighting solutions enhance safety, boost energy efficiency, and foster economic growth through skills development and job creation.

Why Work with PRISM Lighting

Our products are manufactured to the highest quality assurance standards in our ISO 9001-accredited facility. Bearing the SABS mark of approval, our products reflect an unwavering dedication to craftsmanship and adherence to industry standards.

As a B-BBEE Level 2 contributor, we approach every project with a collaborative mindset. Partnering with Prism Lighting means gaining an ally committed to mutual success. Our dedication extends beyond business; we prioritise staff well-being and positively contribute to the community.

Home and Office
Lighting Solutions

Lighting for better living

Gerald Joseph is a provider of high-quality lighting products with a primary focus on affordability and functionality. We cater to chain stores, independent wholesale hardware stores, and wholesalers who value cost-effective lighting solutions without compromising on quality. Our diverse product range includes both locally manufactured and imported items to meet the varied needs of our customers.

Product Range

Gerald Joseph offers a comprehensive selection of non-decorative lighting products tailored to residential and commercial settings. Our product categories include Indoor Lighting, Outdoor Lighting, Bathroom Lighting, and Electrical Fittings, each with a 2-year warranty, as well as our specialised Coastal Range with a 10-year warranty.

What We Offer

Our dedication to innovation and product development has enabled us to produce specialised luminaires and illumination systems under three in-house brands: **Gerald Joseph**, **Spectra**, and **Accende**.

Additionally, we manufacture **OEM illumination systems** for a diverse range of local and international companies. These capabilities allow us to provide a comprehensive range of lighting solutions tailored to unique needs and specifications.

Commercial & Architectural

Illuminate your possibilities with our innovative commercial and architectural lighting solutions. Proudly designed and manufactured in South Africa, meeting illumination design requirements for commercial, architectural, and retail spaces. With exceptional lumen efficacy and proven reliability, Spectra luminaires come with a five-year or 50,000-hour warranty.

Our diverse product range includes troffers, downlights, decorative bulkheads, wall lights, floodlights, horticultural lighting, ground recess lights, wall washers, commercial bulkheads, retail spots, and linear luminaires. Each product is meticulously crafted to offer both functional excellence and aesthetic appeal.

Why Choose Spectra

- Energy efficiency ranges from 130 lumens to 190 lumens per watt.
- Flicker-free lighting and comprehensive surge protection.
- Colour Temperatures (CCT) from 3000K to 5700K @ 70, 80, and 90 CRI.
- Product integration with communication platforms such as DALI, POE, DMX and Bluetooth facilitates seamless integration into advanced lighting systems.
